RICE LAKE WEIGHING SYSTEMS

Industrial Solutions on a Global Scale

The IQ plus® 355...High Performance, High Durability, Low Price.

The IQ plus 355 is built to outlast and outperform any other indicator in its class. It's the only true industrial scale product in its price category.

Providing the ultimate protection, the IQ plus 355 is encased in a tough, all stainless steel NEMA 4X/IP66 enclosure for extra-long life, even in the harshest conditions. The Firelite™ ultra-bright, oversized display reduces operator error and accelerates productivity.

Fully interactive, the IQ plus 355 features two independent communication ports for complete EDP and print ticket programmability. It easily programs two formats with up to 300 characters, allowing you to create complex custom tickets.

The IQ plus 355 drives up to 8 350-ohm load cells, making it the perfect choice for simple multi-cell applications. Additionally, it features RATTLETRAP three-stage digital filtering for eliminating most vibration interference and providing stable, accurate weight data regardless of environment. A simple five-button front panel provides easy operation with full calibration and configuration.

Standard Features:

- Large .8" (20.3mm) Light Emitting Diode (LED) display
- Primary/secondary units configuration: lb, kg, ounce, short tons, metric tons, grams, or none
- Stainless steel washdown enclosure
- 5-button operation
- 2 independent communication ports
- Power for 8 350-ohm load cells or 16 700-ohm load cells
- Three-stage digital filtering
- 2 x 300-character programmable print formats
- Consecutive numbering
- Universal mounting stand
- 2 digital inputs

Options:

- Analog output: selectable 0-10V, 4-20mA
- Panel mount kit
